

TECHNICAL AGREEMENT

Concluded between

The NATO School, Oberammergau
Am Rainenbichl 54
82487 Oberammergau
GERMANY

and **National Defense University "CAROL I"**
Regional Department of
Defense Resources Management Studies
160 Mihai Viteazul Street
Brasov - 500183, ROMANIA

1. General

The NATO School's mission is to conduct individual, operational-level education and training on NATO's current and emerging strategy, concepts, doctrine, policy, and procedures. NATO School supports the two Strategic Commanders in order to improve the operational effectiveness of the Alliance.

Advanced Distributed Learning (ADL) is a training tool to support resident courses and inform students about NATO topics and related NATO School course material. The aim of the NATO School's ADL program is to offer preparatory courses and supplementary information as an adjunct to the residential courses offered or in rare circumstances as a minimal support offering in situations where attendance is not possible. The NATO School's ADL courses are available online free of charge on the Learning Management System located here: <http://pfp.ethz.ch> and here: <https://jadl.act.nato.int/>.

The National Defense University "CAROL I" (NDU) has the goal of training leaders and experts (military and civilian) in the field of national defense and security. The Regional Department of Defense Resources Management Studies mission is to conduct professional education programs in analytical decision making and defense and information resources management for military officers of all services and senior civilian officials.

The goal of the Regional Department of Defense Resources Management Studies programs is to enhance the effective allocation and use of resources in modern defense organizations.

2. Definition of the ADL Cooperation

The ADL Cooperation is a voluntary working arrangement between the NATO School Oberammergau and the Regional Department of Defense Resources Management Studies at NDU in Romania to use and update the "**Resource Management in NATO**" online course.
